

DAVID CATALÁN

Collection SS26

“PROBLEMS” is David Catalán’s new collection for the Spring/Summer 2026 season. The concept stems from a study of traditional crafts from rural Portugal, with a particular focus on manta alentejana textiles and the pastoral use of guizos (herding bells).

These material and visual references are reinterpreted into contemporary pieces, where functionality and utilitarian construction intersect with elements of strong cultural identity.

The collection explores the contrast between rigidity and fluidity, past and present, and reinforces the designer’s signature approach of blending traditional codes with the urban aesthetics of streetwear. The result is a visual language defined by relaxed and comfortable silhouettes.
